It also serves loans held by the now defunct Green Tree Service. It is owned by Walter Investment Management Company, which bought it from Ally Financial, formerly known as GMAC ResCap. Green Tree and Ditech are now one company, so existing borrowers from the former can make payments in Ditech rather than Green Tree. Payment options, online login website and other services remain the same for customers of both companies. Ditech Mortgage Payment Options A number of options are available to pay for the mortgage - auto payment, instant electronic payment, your bank account pay service, automated phone payment, agent-assisted phone payment, post office, Western Union, and MoneyGram. Please note that not all options are free. The best way to pay your mortgage is to choose an online payment option such as auto payment or your bank's account to pay the service. They are free and perhaps the easiest and most convenient. You can even use the mobile app to make the process even faster. Before you use any of these options, you should make sure that you are registered myaccount.ditech.com that serves as a Ditech mortgage online payment kiosk. Also make sure you log in to your account when you make transactions. You can also send your payments in the mail. Here's how to send it: The night mailing address follows.
